Percentage of Retail Sales Covered by Retired Unbundled RECs ³ :								7%	0%	0%	0%	0%	0%	
¹ The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.														
² Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source.														
³ Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credits (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above.														
If you are a participant in a product that shows a “Percentage of Retail Sales Covered by Retired Unbundled RECs”, SMUD purchased unbundled RECs to match all or a portion of your energy usage. For more information about the renewable sources of these unbundled RECs, please refer to our webpage listed above.														
Some customers may be served by more than one electricity portfolio.														
For specific information about this electricity portfolio, contact:								Sacramento Municipal Utility District (SMUD) 888-742-7683
